FISCAL IMPLICATIONS

All Project Agreements authorized under these PSAs will be funded by Board-approved projects.

REASONS FOR RECOMMENDATION

Approve Professional Service Agreements

The Administration has a plethora of Capital Projects that need to be completed over the next few years, and having multiple AE Service Firms under contract is imperative for the successful completion of these projects.

The Facilities and Fleet Department (FAF) subsequently issued RFSQ-FAF-FY23-0453 AE and Related Professional Design Services to address this issue. It was posted on October 7, 2022 on the County's Bid Management Website Periscope (formerly Bidsync) and closed on June 21, 2023, and sixteen submittals were received for evaluation.

The County's Review Board independently evaluated all sixteen qualification statements utilizing the evaluation criteria outlined in the RFSOQ and subsequently shortlisted six firms to execute contract agreement with: Dreyfuss and Blackford Architecture (D+BA), Fong and Chan Architects (FCA), Interactive Resources (IR), DG Architects (DGA), Joseph Chow Architects/AET (JCA), and Russel Lopes Architects (RLA). These agreements are now ready for Board approval.

Delegation of Authority

Authorizing the County Executive, or designee, to be the Owner's Authorized Representative to execute project agreements and to perform other administrative functions related to the PSAs will facilitate efficient and timely execution of the projects, thereby preventing project delays. The delegation to increase the project agreement maximum compensation limit and extension of time are recommended because periodically additional work is needed to close out project agreements that started during the original PSA term.

CHILD IMPACT

The recommended action would have a positive impact on children and youth through the **Youth Feel Valued by the Community** indicator as projects supported by these PSAs will

allow the County to better serve children and youth.

SENIOR IMPACT

The recommended action would have a positive impact on seniors as projects supported by these PSAs will allow the County to better serve seniors.

SUSTAINABILITY IMPLICATIONS

The recommended action would have positive sustainability implications as projects supported by these PSAs will demonstrate the County's leadership and commitment to environmental stewardship through energy conservation and sustainable design.

BACKGROUND

Current AE Services PSAs are nearing capacity or will expire soon. FAF requires multiple AE service firms under contract to support ongoing and upcoming capital projects so they can be completed on time and within budget.

CONSEQUENCES OF NEGATIVE ACTION

The agreements would not be approved at this time.
