

RESOLUTION NO. _____

**RESOLUTION OF THE BOARD OF SUPERVISORS
OF THE COUNTY OF SANTA CLARA
APPROVING DONATION AGREEMENT WITH THE NEW
ALMADEN QUICKSILVER COUNTY PARK ASSOCIATION**

WHEREAS, the New Almaden Quicksilver County Park Association (“NAQCPA”) has offered to donate to the County of Santa Clara (“County”), for use in Almaden Quicksilver County Park (the “Park”) Casa Grande and New Almaden Quicksilver Mining Museum (the “Museum”), historical assets as listed in the Donation Agreement (the “Agreement”) between the County and NAQCPA (each a “Party” and collectively, “Parties”);

WHEREAS, the County’s Department of Parks and Recreation (“Department”) desires to receive the historical assets in the Agreement, the value of which is estimated to exceed ten thousand dollars (\$10,000), to advance the Department’s strategic goals of offering innovative and engaging visitor services and interpretive programming, and protecting significant County historical and cultural resources;

WHEREAS, County Ordinance Code section A2-17 and County Board of Supervisors Policy Manual section 7.15.1(B) require that donations to the Department valued at ten thousand dollars (\$10,000) or more be formally accepted, recognized, and approved by the Board of Supervisors as trustee for the County before being received; and

//

//

//

//

//

//

//

//

//

//

//

//

WHEREAS, County desires to approve the Agreement with NAQCPA, accept the historical assets, and recognize the donation with a thank you letter.

NOW, THEREFORE, BE IT RESOLVED that the Board of Supervisors of the County of Santa Clara, State of California, does hereby:

1. Approves the Agreement with NAQCPA to accept the donated historical assets for public parks purposes in County-owned public parks consistent with Department policies and applicable laws;
2. Delegate authority to the County Executive, or designee, to make minor modifications to the inventory list as appropriate which may be necessary during the transfer of ownership, following approval by County Counsel as to the form and legality. This delegation of authority shall expire on December 31, 2025;

PASSED AND ADOPTED by the Board of Supervisors of the County of Santa Clara, State of California, on _____ by the following vote:

**DONATION AGREEMENT BY AND BETWEEN THE COUNTY OF SANTA CLARA
AND THE NEW ALMADEN QUICKSILVER COUNTY PARK ASSOCIATION**

This New Almaden Quicksilver County Park Association Donation Agreement ("Agreement"), effective as of the date last signed below, is entered into by and between the County of Santa Clara, a political subdivision of the State of California, ("County") and the New Almaden Quicksilver County Park Association, ("NAQCPA") a 501(c)(3) nonprofit organization. County and NAQCPA are each a "Party" and collectively the "Parties" to this Agreement.

WHEREAS, NAQCPA owns the historical assets listed in Exhibits A, B, and C (collectively, the "Assets");

WHEREAS, County owns and operates Casa Grande and the New Almaden Quicksilver Mining Museum (the "Museum") within Almaden Quicksilver County Park (the "Park");

WHEREAS, County has the necessary rights and authorizations to store, display, and use the Assets at the Museum and Park;

WHEREAS, donating certain of the Assets to the County serves NAQCPA's mission of historic preservation and promoting the educational and interpretative activities of the County Parks and Recreation Department, particularly in Almaden Quicksilver County Park;

WHEREAS, NAQCPA desires to donate certain of the Assets to the County, and County desires to accept those Assets, under the terms and conditions hereinafter set forth; and,

WHEREAS, NAQCPA desires to continue storing other Assets at the Museum under County control and wishes to waive its right to compensation for any associated losses.

NOW, THEREFORE, the Parties agree to the foregoing and as follows:

1. **Donation.** NAQCPA agrees to donate the assets listed in Exhibits A and B (collectively, the "Donation Assets") to County and grant County irrevocable ownership, rights, title, and interest in the Donation Assets upon the terms and conditions set forth in this Agreement and without monetary payment to NAQCPA, and the Board of Supervisors agrees to approve and accept such donation on behalf of the County pursuant to County of Santa Clara Ordinance Code section A2-17. The Donation Assets will be transferred to County free and clear of any liens, claims, or encumbrances. NAQCPA shall maintain ownership rights over the assets listed in Exhibit C.
2. **Transfer of Ownership.** Ownership and risk of loss as to each Donation Asset transfers to County upon execution of this Agreement.
3. **Right of First Refusal.** Before any of the Donation Assets is sold or otherwise transferred by the County at any time following the effective date of this agreement (including transfer by gift or operation of law), County shall notify NAQCPA and provide NAQCPA or its assignee(s) with a right of first refusal to receive the Donation Asset(s) by transfer from

the County. Should NAQCPA decline to exercise its right of first refusal within ninety (90) days of receiving notice from County regarding the desired transfer, County may transfer the Donation Asset(s) at its discretion.

4. **Indemnification.** Notwithstanding any other provision of this Agreement, NAQCPA shall indemnify, release, hold harmless, and defend, with counsel approved by County, County and its officers, agents, and employees from any claim, demand, suit, judgment, liability, loss, injury, damage, or expense of any kind (including attorneys' fees and costs) arising out of, or in connection with, performance of this Agreement by NAQCPA and/or its officers, agents, employees, or sub-contractors, excepting only loss, injury, or damage caused by the sole negligence or willful misconduct of personnel employed by County. It is the intent of the parties to this Agreement to provide the broadest possible coverage for County as allowed by law. NAQCPA shall reimburse County for all costs, attorneys' fees, expenses, and liabilities incurred with respect to any litigation or process in which NAQCPA contests its obligation to indemnify, defend, and/or hold harmless County under this Agreement and does not prevail in that contest.
5. **Warranty Disclaimer.** THE ASSETS ARE DONATED "AS IS" WITH ALL FAULTS. NAQCPA MAKES NO WARRANTY WHATSOEVER, EXPRESS OR IMPLIED, WITH RESPECT TO THE ASSETS, INCLUDING ANY WARRANTY OF CONDITION, QUALITY, OR SUITABILITY, WARRANTY OF MERCHANTABILITY, WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE, OR WARRANTY OF TITLE, WHETHER EXPRESS OR IMPLIED BY LAW, COURSE OF DEALING, COURSE OF PERFORMANCE, USAGE OF TRADE, OR OTHERWISE.
6. **Notices.** Any notice required to be given by either Party, or which either Party may wish to give, shall be conducted through email as a primary means of communication, using the email addresses specified below:

County of Santa Clara:

Kim Calame, Interpretive Program Manager
Santa Clara County Parks and Recreation Department
298 Garden Hill Dr.
Los Gatos, CA 95032
kim.calame@prk.sccgov.org

New Almaden Quicksilver County Park Association:

Veronica Jordan, President
1731 Phantom Ave.
San José, CA 95125
Veronicaj20@gmail.com

Notice shall be deemed effective on the date emailed, personally delivered or, if mailed, three (3) days after deposit in the mail. Either Party may designate a different person and/or address for the receipt of notices by sending written notice to the other Party.

7. Severability. If any term or provision of this Agreement is invalid, illegal, or unenforceable in any jurisdiction, such invalidity, illegality, or unenforceability shall not affect any other term or provision of this Agreement or invalidate or render unenforceable such term or provision in any other jurisdiction. Upon such determination that any term or other provision is invalid, illegal, or unenforceable, the Parties shall negotiate in good faith to modify this Agreement so as to effect the original intent of the Parties as closely as possible in a mutually acceptable manner in order that the transactions contemplated hereby be consummated as originally contemplated to the greatest extent possible.
8. Amendment and Modification. This Agreement may be amended, modified, or supplemented only by an agreement in writing signed by each Party hereto.
9. Governing Law, Venue. This Agreement has been executed and delivered in, and shall be construed and enforced in accordance with, the laws of the State of California. Proper venue for legal action regarding this Agreement shall be in the County of Santa Clara.
10. Third Party Beneficiaries. This Agreement does not, and is not intended to, confer any rights or remedies upon any person or entity other than the parties.
11. Authority. The person(s) signing this Agreement on behalf of NAQCPA represents and warrants to County that they have the requisite legal authority and power to execute it, and to bind NAQCPA to the obligations contained herein.
12. Counterparts and Contract Execution. This Agreement may be executed in counterparts, each of which shall be deemed an original, but all of which together shall be deemed to be one and the same Agreement. Unless otherwise prohibited by law or County policy, the Parties agree that an electronic copy of a signed contract, or an electronically signed contract, has the same force and legal effect as a contract executed with an original ink signature. The term "electronic copy of a signed contract" refers to a transmission by facsimile, electronic mail, or other electronic means of a copy of an original signed contract in a portable document format. The term "electronically signed contract" means a contract that is executed by applying an electronic signature using technology approved by the County.

//

//

//

//

//

//

13. **Entire Agreement.** This Agreement, together with Exhibits A, B, and C, constitutes the final, complete, and exclusive statement of the terms of the agreement between the Parties. It incorporates and supersedes all the agreements, covenants, and understandings between the Parties concerning the subject matter hereof, and all such agreements, covenants, and understandings have been merged into this Agreement.

IN WITNESS WHEREOF, the Parties hereto have executed this Agreement as provided below, effective as of the last date signed by all the Parties.

	c. Cinnabar specimen from Germany	NAQCPA	
	d. Cinnabar specimen from Yugoslavia	NAQCPA	
	e. Cast iron mercury flask	NAQCPA	
	f. Cast iron mercury flask	NAQCPA	

72.	a. World map, in color, wall mounted	NAQCPA	
	b. Three cast iron mercury flasks, with leaders to various parts of the world where mercury is found.	NAQCPA	

73.	a. Wall mounted map of United States, in color.	NAQCPA	
	b. Wall mounted map of California and Nevada (in color)	NAQCPA	

	c.	(1) Legend re: Mercury and its standards	NAQCPA	
		(2) Small glass bottle containing refined mercury	NAQCPA	
	Idaho	(4) Speciman [sic] of Cinnabar in opalite, N. Weiser, Washington County,	NAQCPA	
		(6) Two specimens of cinnabar ore from Russian River are, one being in the rough but cut with veins visible; the other, an oval cabochon stone showing the striations of cinnabar.	NAQCPA	
		(7) Specimen of cinnabar from Sulphur Bank Mine, Napa County	NAQCPA	
		(8) Glass vial with cinnabar specimens found near Gilroy Hot Springs.	NAQCPA	
		(9) Several pieces of cinnabar ore from San Luis Obispo.	NAQCPA	
		(10) Two specimens of cinnabar and Pyrite from New Idria, California	NAQCPA	
		(11) Specimen of cinnabar from Archer Mines, Fresno County.	NAQCPA	
		(12) Specimen of cinnabar in opalite from Nevada	NAQCPA	
	d.	(1) Five small cinnabar specimens from National Sunflower Mine, Payson, Arizona.	NAQCPA	
		(2) Two small cinnabar specimens from Texas.	NAQCPA	
		(3) Large piece of matrix with free quicksilver abounding, found 1958, outskirts of Redwood City, California, by two high school boys (this being the richest known deposit at that time; and this, one of the original pieces)	NAQCPA	
		(4) Three pieces of cinnabar from Sonoma County	NAQCPA	
		(a) Rough	NAQCPA	
		(b) Pair of oval polished cabochons	NAQCPA	
		(5) Specimen of meta cinnabar from Contra Costa County, California.	NAQCPA	
		(6) Two specimens of Sheutteite from silver Cloud Mine, Nevada (yellow mineral, a sulfite of mercury)	NAQCPA	
		(7) Cinnabar in opalite from Silver Cloud Mine, Nevada	NAQCPA	
		(8) Cinnabar from Wild Rose Mine, Nevada	NAQCPA	
		(9) Corderoite with cinnabar, McDermott Mine, Humboldt County, Nevada	NAQCPA	
		(10) Betty Mine cinnabar ore from Mineral County, Nevada.	NAQCPA	
	e.	(1) Four stoneware crocks for mercury; two are labeled mercury, being approximately 1/2 pint size, the other two being graduated and smaller and they are of English manufacture.	NAQCPA	

	(2) Cast iron mercury flask	NAQCPA	
	(3) Cast iron mercury flask with handling hook	NAQCPA	
	(4) Adobe brick with reddish coloration from furnace and heavy with mercury	NAQCPA	
	(5) Large stone specimen of chalcedony showing cinnabar veins, new Idria, San Benito County, California	NAQCPA	

76.	a. Spanish map of Spain, wall mounted	NAQCPA	
	b. Map of Central Europe (Yugoslavia showing Idria)	NAQCPA	
	c. Wall mounted wooden souvenir Plate of Idria	NAQCPA	
	d. Specimen of cinnabar crystal from Almaden, Spain (Dana Locale)	NAQCPA	
	e. Specimen of cinnabar and native mercury from Ciudad Real (Almaden) Spain	NAQCPA	
	f. Wall mounted geological map, in color, of Almaden (Spain)	NAQCPA	
	g. Two cinnabar specimens	NAQCPA	
	h. Cast iron mercury flask from Spain (very old)	NAQCPA	
	i. Modern mercury flask from Almaden, Spain	NAQCPA	
	j. Cast iron mercury flask from Idria, Yugoslavia	NAQCPA	

77.	Six photographs of Casa Grande, Almaden (Spain) mounted in one frame.	NAQCPA	
-----	---	--------	--

78.	Four photographs of Almaden, Spain, mounted in one frame.	NAQCPA	
-----	---	--------	--

79.	Four photographs from Almaden, Spain, mounted in one frame	NAQCPA	
	a. Xabecas Furnace, xth century		
	b. St Teodoro with ore ready for roasting	NAQCPA	
	c. Bustamonte Furnace, 1646-1930	NAQCPA	
	d. St. Teodoro main shaft, as of 1900	NAQCPA	

80.	Four photographs from Almaden Mine, Spain, mounted in one frame	NAQCPA	
	a. Furnace Buildings		
	b. Condensers	NAQCPA	
	c. Condensation pools	NAQCPA	

	d. Exploring in 19 th floor	NAQCPA	
81.	Framed legend: "New Almaden Quicksilver," image 14" x 11"	NAQCPA	
82.	Wall mounted World Seismicity Map, USGS Survey, 1973, framed	Parks	
83.	Map of Peru, South America, framed, wall mounted, inset with invoice dated at Lima, February 8, 1866, #8524, being an account of Sales of Merchandise by Agnes Banfield of San Francisco, from Quicksilver Mining Co. of San Francisco for 97 flasks of quicksilver for delivery to Lima.	NAQCPA	
84.	Two Framed legends: a. Cinnabar) Cinnabaris) being Greek and Arabic derivations of the name of the ore.	NAQCPA	
	b. The History of the Living Silver (De Argento Vivo) 700 B.C. to 1978.	NAQCPA	
87.*	a. Wall mounted map, "Geologic Section through the Harry Area and block diagrams of the Cora Blanca and San Francisco Areas of the New Almaden Mine, Santa Clara County, California" showing shafts, tunnels, and depths of shafts/tunnels.	Parks	
88.	Model of "square" tunnel shoring with tracks, showing elevation within tunnel, 20"x 63½" x 20"	Parks	
89.	Framed map, "Mercury Mining in the West", image 10"x 8" mounted on side of case No. 5	NAQCPA	
90.	Wall mounted colored map, "Plan of the New Almaden Mine," scale 150 ft. to the inch, compiled by F. Reade, 1885, B.E. Becker Geologist in charge; image 32½ x 19½, (USGS Monograph XIII Atlas sheet IX)	NAQCPA	
91.	a. (1) Set of five vases, mounted in original (Chinese shipping) box showing the stages of cinnabar carving on vase, approximately 4" tall	NAQCPA	
	(a) The blank metal vase	NAQCPA	
	(b) Coated with fine ground cinnabar ore mixed with sap of Lac Tree (relative of the poison oak) six to twelve layers applied.	NAQCPA	
	with (c) After proper depth of lac and cinnabar, the outline is drawn on vase ink/brush	NAQCPA	
	(d) Stage in carving	NAQCPA	
	(e) Final stage	NAQCPA	

	b. (1) Six cinnabar lacquer Chinese carved brooches (silver mounted) and a pair of matching earrings, all mounted on one frame with stand	NAQCPA	
	c. (1) Laboratory model of cast iron retort, mounted on adjustable spindle with stand; the heat being supplied by Bunsen burner, a tube leading to glass jar partially filled with water, the mercury settling on the bottom, four nuggets of cinnabar on the stand (miniature mercury still, illustrating process of recovery of mercury by distillation, ore heated to 1000 degrees F.; this vaporized mercury is condensed by cooling in water)	NAQCPA	
	d. (1) Fulminating acid salts, used in detonating gun powder used in percussion caps and in cartridges	NAQCPA	
	(2) Mercury sponge (silver amalgam) with stoneware crocks holding 5 lbs mercury, and smaller crocks and vials, when mixed in ceramic mortar with fine particles of silver, used by dentists in filling teeth.	NAQCPA	
	(3) Lining of blown glass door knobs, drawer pulls, stoppers, etc.	NAQCPA	
	(4) Lining of decorative blown glass vases (mercury glass)	NAQCPA	
	(5) Lining of light reflectors	NAQCPA	
	(6) Lining of thermos bottles and thermal wine coolers	NAQCPA	
	(7) For thermometers, barometers, hydrometers [sic], hycrometer	NAQCPA	

93.	Examples of the application of mercury to science and medicine	NAQCPA	
	a. (1) Twenty-nine compounds of mercury for human and animal diseases, in use in 1970s; some now discontinued including usage for venereal disease; ointments for external application, powders for sprays, etc.		
	b. (1) Instrument for blood pressure readings.	NAQCPA	
	(2) Batteries for hearing aids	NAQCPA	
	(3) Early pace maker (heart patient)	NAQCPA	
	(4) Eye glasses grown under mercury light	NAQCPA	
	(5) Mercury wetted contact relays used in computers.	NAQCPA	
	(6) Mercury switches (seven)	NAQCPA	
	c. Two 48" mercury vapor lights used in making blue print copies	NAQCPA	
	d. (1) 54" mercury vapor light, circa 1903 (which cuts out red rays) shown with G.E. transformer for vapor lamp (one of the first commercial vapor lights which later resulted in today's fluorescent lighting)	NAQCPA	
	(2) Three mercury lights	NAQCPA	
	(a) Westinghouse 1000 W weather duty	NAQCPA	

	(b) Smaller version of same	NAQCPA	
	(c) Tubular version	NAQCPA	
	(3) Fred C. Henson Frequency Standard, using mercury gauge	NAQCPA	
	(4) Four assorted mercury arc rectifiers	NAQCPA	
	(a) G.E. #427060, cat 40955, circa 1915	NAQCPA	
	(b) Westinghouse WL-869B, circa after WWI	NAQCPA	
	(c) Rectifier for radio, circa 1930s	NAQCPA	
	(d) Rectifier, circa 1920s	NAQCPA	
	(5) Framed page from Scientific American, February 7, 1903, with story re: Peter Cooper Hewitt and Lord Kelvin, and story of the mercury vapor lamp and Cooper Hewitt converter.	NAQCPA	

94.	a. Eleven pages pertaining to the Cornish Pump from Mineral Information Service, June 1967.	Parks	
	b. Single framed photographs of George Corliss, 1817-1898, inventor of the Corliss Mechanism, and a photograph of the pumping engine, Buena Vista shaft	Parks	
	c. Brass oil cup from Cornish Pump, Buena Vista shaft, used until WWI	Parks	
	d. Thirteen photographs of the Cornish Pump, each in frames, images 10" x 8 7/8" [sic] x 10". With framed legend of the Cornish Pump at Buena vista shaft, new Almaden, built by Prescott & Scott, San Francisco, 1882 (used until WWI)	Parks	

95.	(USGS) Survey map of ore bodies and topography of Mine Hill, New Almaden, circa 1885, framed, image 19 1/2" x 15 1/2".	NAQCPA	
-----	--	--------	--

96.	(USGS) survey map, East and West Vertical Section of New Almaden Mine, circa 1885, image 16" x 19", framed		
-----	--	--	--

97.	(USGS) Geological Map of the New Almaden Mining District (lithograph in color circa late 19 th century) 16" x 29 1/2"	NAQCPA	
-----	--	--------	--

98.	(USGS) Map of Cross Sections through New Almaden Mine area, Santa Clara County, California, circa late 19 th to early 20 th century, annotated by USGS Survey Team, circa 1960s showing San Francisco Mine 50,000 flasks; Mine Hill original discovery 1824, produced 500,000 flasks; Randol Mine, 300,000 flasks (wall mounted, unframed, 35 1/2" x 30")	Parks	
-----	---	-------	--

100.	a. USGS Geological Map of Sections of the Guadalupe-Senator Mine Area, New Almaden, California, with legend: "Senator Mine, 1872-1900, 1915-1926" (Wall	NAQCPA	
------	---	--------	--

	mounted, unframed with 8" x 10" photograph of Senator Mine, 1924, South-end of McAbee Road)		
	b. Two large photographs in one frame: Electrical dust precipitation, Senator Mine, power on (at left) power off (at right). Shows first use of electrical precipitator in mercury mining Cottrell process. (Frame of period included)	NAQCPA	
	c. Two unframed legends: (1) Ecology at New Almaden, 1863-1924	NAQCPA	
	(2) Electrical Precipitation	NAQCPA	
	d. Schematic diagram of electrical precipitator	NAQCPA	
	e. Six framed photographs pertaining to the Senator	NAQCPA	
	f. (1) Chimney soot impregnated with mercury (in small plastic container)	NAQCPA	
	(2) Concentrate of cinnabar ore, Senator Mine, 1924, (in glass vial)	NAQCPA	
	(3) Sample of mercury Senator Mine, 1942 (in plastic container)	NAQCPA	
	(4) Cinnabar ore, Senator Mine, 1939	NAQCPA	
	(5) Two specimens of cinnabar ore, Senator Mine, 1940	NAQCPA	
	(6) Schematic drawing of Quicksilver Mine, Senator Mine, New Almaden, Corp., circa October, 1940, artist unascrbed	NAQCPA	
	g. (1) California cap blasting machine, circa early 20 th century	NAQCPA	
	(2) Two black powder cans and length of fuse used in blasting	NAQCPA	
	(3) Cast iron half flask (38 lbs)	NAQCPA	
	(4) Homemade iron flask	NAQCPA	
	(5) Stone ware electrical insulator used to carry electrical power to precipitator (rare shape)	NAQCPA	

101.	a. USGS Survey Map of Section A-A through Guadalupe Mine (wall mounted), together with photographic reprint of "Guadalupe Quicksilver Mine, Works, and Cottages," and stock certificate for 100 shares: new Guadalupe Mining Co., dated February 24, 1911, Cert. #77, made out to C.W. Aby	NAQCPA	
	b. Photograph, in color, unframed, of Guadalupe Mine Reduction Works, circa 1979	NAQCPA	
	c. Three framed photographs (side mounted) pertaining to "Mine Entrance of Guadalupe Mine, 1875, "the "Hoisting Works, Reduction Works and Flume destroyed in flood, 1875," and "Reduction Works and Office, 1875"	NAQCPA	
	d. Wall mounted Map of Monterey and San Benito Counties, circa 1976, locating New Idria Mine.	NAQCPA	

	e. Five framed photographs, image 8" x 10", of New Idria Mine, circa 1906, 1907, 1908, and 1917	NAQCPA	
	f. (1) Two specimens of Rocky Point samples of cinnabar	NAQCPA	
	(2) Framed small reproduction in black/white of an American Historical Painting of Early California, "The Famous Almaden Quicksilver Mine near San Jose, California." Painted by A. Edouart at San Francisco, 1860	NAQCPA	
	g. Large specimen of strawberry cinnabar ore, San Benito County (very rich)	NAQCPA	
	h. Small specimen of cinnabar and pyrite, New Idria Mine	NAQCPA	
	i. (1) Air Jack hammer	NAQCPA	
	(2) Large specimen of "Rich cinnabar ore, 18½ lbs"	NAQCPA	
	(3) Two cast iron flasks	NAQCPA	
102.	Model of incline and deepest shaft of New Idria with ore tramways and the aerial tramway for bringing ore from peak at shaft to reduction works; measurements of model, 30" x 119" x 19"	Parks	
103.	USGS Open File Map, prepared in cooperation with HUD, showing distribution of mercury in surface sediments in San Francisco Bay Estuary, California, circa 1971, image 22½" x 30", wall mounted, unframed, together with framed legend: "Mercury," image 8" x 10", delineating the status of mercury as it relates to the market and environmental impact, feasibility of production, 1973	NAQCPA	
104.	Wall mounted long wrought iron, four-pronged rake, circa mid 19 th century made in New Almaden to rake slag from continuous furnaces	Parks	
105.	Wall mounted long wrought iron, six-pronged rake, circa mid 19 th century	Parks	
106.	USGS Map of Longitudinal Section of the South ore channel, new Almaden Mine, scale 150 feet to inch, circa 1885, image 20" x 32" framed, wall mounted	NAQCPA	
107.	USGS Double map North and South Sections of New Almaden Mine a. .550 [sic] feet west of Randol shaft	Parks	
	b. Through the Randol shaft	NAQCPA	
	Circa 1885, image 20" x 32", framed, wall mounted	Parks	
108.	Large hand drawn map, "New Almaden, 1885," drawn by Jimmie Schneider for New Almaden Historical Society, scale 200 feet to inch, image 35" x 32"; annotated at left and at right with five photographs for each side, notations and directional lines	NAQCPA	

	correlating pictures to sites on map, all under glass with frame, overall size 59½" x 29¾", wall mounted		
109.	a. (1) Chalcedony (quartz) with cinnabar "Great Eastern"	NAQCPA	
	(2) Six various specimens of cinnabar bearing ore	NAQCPA	
	(3) Brick (adobe) used in retort lining impregnated with mercury	NAQCPA	
	(4) Six various specimens of cinnabar bearing ore	NAQCPA	
	(5) Specimen "Slickenslides Mine Hill"	NAQCPA	
	b. (1) Specimen ore (unmarked)	NAQCPA	
	(2) Cinnabar Brechia, Cora Blanca (polished, slabbed specimen)	NAQCPA	
	(3) Specimen ore, Harry Shaft 500-600 level	NAQCPA	
	(4) Cinnabar in dolomite, showing pockets of bitumen (black, a hydrocarbon)	NAQCPA	
	(5) Specimen, slabbed and polished, late 1890s, partially burnt ore, found in creek bed	NAQCPA	
	(6) Slab of onyx, "Mine Hill," showing cinnabar vein	NAQCPA	
	(7) Two pieces of dolomite with cinnabar veins (one slabbed) Deep Bulch [sic], 800 foot level	NAQCPA	
	(8) Specimen, rare cinnabar with crystals	NAQCPA	
	(9) Specimen, cinnabar ore, water worn, Deep Gulch Creek	NAQCPA	
	(10) Specimen, ore, Randol Workings	NAQCPA	
	(11) Specimen, ore, unmarked [sic], (Randol Workings)	NAQCPA	
	c. (1) Four small pieces of cinnabar ore, unasccribed	NAQCPA	
	(2) Four large pieces of cinnabar ore, ascribed "Potatoe ore, 2¾" and "Potatoe ore 4 lbs"	NAQCPA	
	(3) Specimen, cinnabar ore of important size, 27 lbs	NAQCPA	
	(4) Four large pieces of cinnabar ore, ascribed "Potatoe ore, 5 lbs)	NAQCPA	
	(5) Four small pieces of cinnabar ore, unasccribed	NAQCPA	
	d. (1) Specimen, ore, unasccribed	NAQCPA	
	(2) Small specimen, ore, showing free quicksilver (Jimmie Schneider)	NAQCPA	
	(3) Small specimen, ore, cinnabar with other	NAQCPA	

	(4) Two pieces of meta-cinnabar, small	NAQCPA	
	(5) Round stone, Jasper (sometimes mistaken for cinnabar until held, then lack of weight is noted.	NAQCPA	
	(6) Concentrated pulverized ore, in glass vial	NAQCPA	
	(7) Glass bottle of liquid mercury and specimen of yellow ore labeled "Cinnabar is the mixture of mercury and sulphur"	NAQCPA	
	(8) Ground cinnabar in glass vial, New Almaden	NAQCPA	
	(9) Specimen, high grade cinnabar, New Almaden (sprayed)	NAQCPA	
	(10) Specimen, mercury sublimate	NAQCPA	
	(11) Specimen, cinnabar with quartz dolomite veins	NAQCPA	
	(12) "Antigorite" (serpentine) specimen, (after this metamorphic rock was intruded into the coast ranges, in some areas, it would be altered by silica cargonate the host rock for the ore)	NAQCPA	
	(13) Two pieces of cinnabar ore, unascrbed	NAQCPA	
e.	(2) Specimen of crystal formation showing enclosure of petrol-cum [sic], Mine Hill	NAQCPA	
	(3) Large crystal formation (quartz) showing cinnabar in quartz, from Mine Hill, New Almaden	NAQCPA	
	(4) Three specimens of crystals found in various shafts, New Almaden	NAQCPA	

110.	a. Geological Map, in color, of New Almaden Mine area, Santa Clara County, California, published by Interior Department Geological Survey, Washington, D.C., Geology by Edgar H. Bailey and Donald L. Everhart, 1946, image 40" x 44"	Parks	
	b. Small slant fronted vitrine (display) cabinet attached below map above, containing small map of U.S. Department of Interior Geological Survey, Professional Paper 360, Plate 2 depicting Six Diagrammatic Sketches, in color, showing the process of formation of the primary and placer quicksilver ores of New Almaden District, Santa Clara County, image 13" x 13½", together with twelve small specimens of the types of rocks shown in the map	Parks	
	c. U.S. Department of Interior Geological Survey Map, in color, of the Geological Map and Sections of the New Almaden District, Santa Clara County, Professional Paper 360, Plate #1 image 27½" x 42", (mounted on reverse of display partition)	NAQCPA	

111.	Collection of assorted iron equipment	Parks	
	a. Screw jack, 5 feet		
	b. Air hammer (drill-"drifter") and rubber air hose	Parks	

	c. Screw jack, 48"		
	d. Screw operated water valve system (used with jacks and blocks for shoring while drilling)	Parks	

112.	a. Two Carbic flare lights, manufactured by Carbic Mf. Co, Duluth, Minnesota, Style No. 2, model 203, each charged with 20 carbic cakes, (dist. By Oxweld Acetylene Co., N.Y., Chicago and San Francisco), portable, complete with aluminum reflectors; Note: Cakes were carbide calcium, when mixed with water formed gas which is combustible.	NAQCPA	
	c. Tinned miner's lantern circa early to mid 19 th century.	NAQCPA	
	d. A collection of wrought iron sperm whale candle holders, each with bayonet-like spike and hood (1) Approximately 6", circa early 19 th century	NAQCPA	
	(2) Approximately 6", early 19 th century	NAQCPA	
	(3) Approximately 12", circa early 19 th century (cross hatched at candleholder with hammer)	NAQCPA	
	(4) Approximately 10", circa mid 19 th century equipped with tinned peg oil lamp font and wick	NAQCPA	
	(5) Approximately 12", circa early 19 th century	NAQCPA	
	(6) Approximately 12", with brass checkered hollow handle for carrying matches, circa mid 19 th century	NAQCPA	
	e. "Shift Boss" whale oil tole supply can, circa med 19 th century	NAQCPA	
	g. Tinned petticoat lamp, circa 1840-1850	NAQCPA	
	h. Tinned whale oil miner's lamp with "cobra-hood-like" reflector	NAQCPA	
	i. Miner's contemporary electric battery and head light shown in position of being charged (water level must be maintained much as automobile storage battery)	NAQCPA	
	j. Yellow painted miner's helmet	NAQCPA	
	k. Three miner's lights	NAQCPA	
	(1) Metal (iron) oil lamp with reflector and hook, approximately 9" tall	NAQCPA	
	(2) Small brass and tinned oil lamp and reflector with hook approximately 4" tall	NAQCPA	
	(3) Brass and tinned small lamp with nickel plated reflector, approximately 4½" tall	NAQCPA	
113.	a. Miner's "uniform" consisting of cotton undershirt, trousers, rubber boots, white plastic helmet with attached electric lamp and red light, battery, canvas and leather belt, pipe	NAQCPA	

	wrench		
	b. Red miner's helmet	NAQCPA	
	c. Pair ear muffs (protection from drilling noise)	NAQCPA	
	d. Dust mask, "breather", with two filters	NAQCPA	
	e. Collection of four wall mounted and framed colored photographs (1) 40 ton crusher	NAQCPA	
	(2) 40 ton rotary furnace	NAQCPA	
	(3) Flame at burner end of furnace, 1200 degrees F. The upper end of furnace temperature is 650 degrees F.	NAQCPA	
	(4) Mercury vapor condensers, New Almaden Mine, 1973	NAQCPA	
	f. Two framed black/white photographs (1) 1940 Reduction Works moved from Hacienda to Mine Hill	NAQCPA	
	(2) 1969 100-ton rotary furnace installed New Idria Mining Co., sold to Philippine Mining Co., 1974	NAQCPA	
	g. Half flask, cast iron, converted to oiler for equipment	NAQCPA	
	h. Drill with three rotating heads	NAQCPA	
	i. Drill cores, and assortment of cinnabar ore samples	NAQCPA	

114.	Gardener Denver Stoper with air and water hoses and three "stringers" of various lengths (wall mounted) used to 1975 in the last mining on the Hill by Frank Kambish	Parks	
------	--	-------	--

115.	a. Nine black/white photographs, framed, images 8" x 10" and 10" x 8" (1) Lower center two arrastras, used 1845-1846 to crush ore	NAQCPA	
	(2) 1860s ecology, stacks to carry fumes out of valley, ore wagon bringing ore from Mine Hill to furnace	NAQCPA	
	(3) Furnace yard, March, 1876	NAQCPA	
	(4) Metal pickers (sorting ores)	NAQCPA	
	(5) Bed of old furnaces	NAQCPA	
	(6) Part of continuous furnace, 1876	NAQCPA	
	(7) Incline to bring ore to furnace	NAQCPA	
	(8) Section of continuous brick furnace (built by R. Scott and H.J. Hunter [sic])	NAQCPA	

	(9) Charging the furnace, 1870	NAQCPA	
	b. Air hammer and two drills	NAQCPA	
	c. Iron ore shovel (without handle)	NAQCPA	
	d. Odd assortment of iron parts of machinery (1) Shim with peg	NAQCPA	
	(2) Two cast iron elbows	NAQCPA	
	(3) Bulb shaped valve(?), key operated electrical connector(?) with leather handle and attached key, Cast iron square base(?)	NAQCPA	

116.	a. Collection of eight wall mounted black/white photographs, images 8" x 10", 10" x 8", 6" x 9" etc. (1) 1897 New Almaden furnace workers	NAQCPA	
	(2) Hoisting machinery, Buena Vista shaft in 1880	NAQCPA	
	(3) 1500-foot level, Randol shaft, taken with magnesium lamp	NAQCPA	
	(4) P. Avila, Mexican miner	NAQCPA	
	(5) Randol Dump, 1897, Ellard Carson, son of Postmaster with horse.	NAQCPA	
	(6) Santa Isabel shaft	NAQCPA	
	(7) Miners working 1300-foot level, taken with magnesium lamp	NAQCPA	
	(8) Miners returning from 10-hour shift in two-stage skip (elevator)	NAQCPA	
	b. Miner's wrought iron candleholder, mid 19 th century	NAQCPA	
	c. California miner's pick-hammer with handle, circa 1849	NAQCPA	
	d. California miner's pick, circa 1849	NAQCPA	
	e. California miner's pick, circa 1849, with handle	NAQCPA	
	f. Three wrought iron miner timber fasteners (wall mounted)	NAQCPA	
	g. Double calipers to measure inside and outside of iron at one time	NAQCPA	
	h. Green River wheel, used to measure iron needed in making wagon wheel	NAQCPA	
	i. Miner's pick-hammer head, No. 2	NAQCPA	
	j. Miner's pick-hammer, with handle	NAQCPA	
	k. "Single Jack" small sledge hammer	NAQCPA	

	l. Tole lunch pail	NAQCPA	
	m. Two stoneware ginger beer bottles (used 1870-1880s when flasks were in short supply) imported from England	NAQCPA	
	n. Steam engine governor, from Corliss engine which ran Cornish pump	NAQCPA	
117.	A collection of wall mounted photographs, framed, as follows: a. Day Tunnel Planilla, in the 1880s, image 16" x 20"	NAQCPA	
	b. Square-set Timbering, Randol Shaft, 1897, Mr. and Mrs Derby, image 10" x 8"	NAQCPA	
	c. Untitled View of the Mine, image 8½ " x 13"	NAQCPA	
	d. Furnace Yard, in 1860s, image 19½" x 20"	NAQCPA	
	e. Another View of Furnace and Bridge, unframed, image 15" x 18"	NAQCPA	
	f. Filling the Iron Flasks with 76 lbs of Mercury	NAQCPA	
	g. Sealing the Mercury Flasks	NAQCPA	
	h. On Guard Protecting the Full Mercury Flasks, Reduction Works, New Almaden, 1875.	NAQCPA	
118.	Photographic reproduction of the "Plan of the Furnace Yard of the Quicksilver Mining company, New Almaden, California, December, 1879," image 14" x 22¾"	Parks	
119.	Leather bucket with turned down collar, circa mid to late 19 th century	Parks	
120.	Small hoeing table (Mercury from condenser contains water, soot, and scale; is put into bucket and mixed with "hot lime"; the lime when hot will drive off water, soot, and scale, allowing mercury to run free. Bucket (above) is then dumped onto the hoeing table, mixed with a hoe until mercury is worked out and running free; size 25¼" x 45" x 24" being a slanted rectangular iron welded open tray, sides 4" high having shorter front, welded angle iron legs, with drain at one corner (which has the shortest leg) allowing mercury to run free (into an iron bucket with pouring spout), circa mid 19 th century	Parks	
121.	Iron bucket with pouring spout	Parks	
122.	Detecto (Mantes) scale, with flask and funnel, together with wall mounted small colored print (of mercury being poured into flask while on scale)	Parks	
123.	An assortment of twelve odd mercury flasks	Parks	
124.	a. Redwood pipe, 4" x 4" x approximately 72" section of pipe being part of the water system bringing water from springs on the hill to the furnaces, lengths of pipe were	NAQCPA	

	coupled together by means of tapered slip joint connections treated with red lead, manufactured at a plant in Lexington, Santa Clara County		
	b. Wooden air duct used 1860s-1890s, made at Lexington (near Los Gatos)	NAQCPA	
	c. Wooden pulley from old reduction works with rope length and iron double ringed link (one open ended)	NAQCPA	
	d. Wrought iron plumb bob, used in mines, circa 1850s	NAQCPA	
	e. Small framed half page from Harper's new Monthly Magazine, June 1863, with illustration and text, entitled "Blasting in the New Almaden Quicksilver Mine, 1857"	NAQCPA	
	g. (1) White porcelain candleholder found in one of the shafts on Mine Hill, 1951	NAQCPA	
	(4) Miner's candleholder, wrought iron mule shoe handle, made in New Almaden	NAQCPA	
	j. Scale model of ten stamp gold and silver mill from Stanford which stood on the banks of the Carson River, where much of the New Almaden mercury was used. The gold and silver ore was crushed in the mills such as this, then the mercury was added to the ore to recover the gold and silver in amalgam form, approximately 18" x 16" x 12"	NAQCPA	
	k. Cast iron stamp, such as used to pound ores in stamp mills, approximately 8" diameter, 10" tall from Northern Sierra Nevada mining operation	NAQCPA	
	l. Small cast iron mortar and iron pestle from New Almaden	NAQCPA	
	m. Large cast iron mortar with tri-shaped pestle with extension bar, labeled "Old by J. Caire," and turning handle used in New Almaden	NAQCPA	
125.	Man yoke, wooden, with two ropes and two hooks, circa mid 19 th century used by New Almaden Chinese to carry water, etc, etc.	Parks	
128.	Primitive wooden scrubbing board, hand made, together with small framed photo and framed legend, "Picture taken Alamitos Creek, New Almaden, primitive wooden wash board," circa mid to late 19 th century	Parks	
129.	Framed lithograph, "The Works and the Mine, New Almaden," image 14" x 18", matted, circa mid 19 th century from Thompson & West Atlas.	NAQCPA	
130.	Wooden gear from water wheel of machine shop of Reduction Works, made of Mexican oak, diameter 16", together with framed legend of the water wheel, image 10" x 8"	NAQCPA	
131.	Section of a chicken ladder (redwood, water worn), "Escalera de Gallina," used in mines for miners to climb with "sirones" of ore—rest platforms every 100 feet, length of section 5 feet, together with small framed print of chicken ladders and miners climbing	NAQCPA	

132.	"Siron" (cowhide sack) made of fresh cowhide filled with rocks and set aside till dry; would hold 100 kilos (220 lbs)	NAQCPA	
133.	Four assorted iron "spike" drills, (stingers) and two fragments of shoring timbers	Parks	
134.	Two pairs of oxen shoes, (iron half shoes because of the cleft hoof), mounted on side wall plaque, with small framed legend found along outside of first curve of Mine Hill Road	Parks	
136.	a. (12) Rectangular iron fluter (older type) used in New Almaden	NAQCPA	
	b. (3) Two and one-half pairs lady's shoes, early 20 th century	NAQCPA	
	(5) Cast iron trivet, "SEA S.F. Cal," circa 1890-1910	NAQCPA	
	(6) Charcoal heated iron, wood insulator handle, circa mid third quarter 19 th century	NAQCPA	
	(7) Electric iron wood insulator handle, circa early 20 th century	NAQCPA	
	(8) "AA" cast iron flat iron, with rigid iron handle, mid 19 th century	NAQCPA	
	(9) Blue enameled early gasoline iron, with fuel tank ball attachment, circa early 20 century	NAQCPA	
	(10) Cast iron "sad" iron with hollow center for inserting heated ingot, wood inserted handle, circa late 19 th century	NAQCPA	
	(11) "C" cast iron flat iron, with rigid iron handle, mid 19 th century	NAQCPA	
	(12) Elliptically shaped cast iron flat iron without handle circa late 19 th to early 20 th century	NAQCPA	
	(13) Asbestos sad iron insert (only), circa late 19 th century	NAQCPA	
	(14) Cast iron flat iron with removeable iron and wooden handle, maker Bless and Drake (?), circa late 19 th century	NAQCPA	
	(15) "Tailor's Goose," cast and wrought tailor's iron, weight 16 lb.	NAQCPA	
	(16) Iron flat iron, maker Geney (?), rigid handle	NAQCPA	
	(17) Sensible No. 1 flat iron, with removeable handle	NAQCPA	
	(18) Wooden clamping device, holding iron form for ironing sunbonnets, baby's bonnets, etc. circa mid to late 19 th century made and used in New Almaden	NAQCPA	
138.	Wall mounted right handed crank telephone, circa late 19 th century from mine office	Parks	

141.	Red silk satin waist with black lace trim, formerly owned by Mrs. Herbert Laird, late 19 th century	Parks	
147.	z. Five odd dominoes, (ivory and ebony)	Parks	
	aa. Braided leather bull whip, wooden handle	Parks	
148.	Carved and painted wooden panel with two appliquéd wooden ornaments, one suspending metal bell, 42" 21½", fragment from pagoda presented by Chinese Emperor, circa 1858; together with framed legend, image 10" x 8", and framed photograph of the pagoda, with members of the Barron and Forbes families, image 15½" x 20"	NAQCPA	
149.	d. Clover shaped tinned tea canister, with original paper label from Mine Hill	NAQCPA	
	e. Green glazed votive pottery "josh" stick holder (alter piece) from Mine Hill	NAQCPA	
	j. Brass rice ladle from Mine Hill	NAQCPA	
	n. Small round brass footed saucer, chased center, diameter approximately 3", Chinese, late 19 th century from Mine Hill	NAQCPA	
	u. Three rectangular reticulated wooden ornaments, gilt trimmed from Pagoda.	NAQCPA	
	v. Black silk skull cap	NAQCPA	
	x. White glazed "tea pot," (handle and spout missing) from Mine Hill	NAQCPA	
	y. Carved cinnabar and white lacquer vase, cameo effect, 6" tall on wood stand, baluster shape, Chinese, mid to late 19 th century	NAQCPA	
	z. Small round carved cinnabar lacquer cover, diameter 2"	NAQCPA	
	aa. cinnabar nugget	NAQCPA	
	bb. Blue/white glazed porcelain medicine/wine bottle	NAQCPA	
	cc. Unframed legend, "Chinese in New Almaden," together with photograph of one of Mine Hill Chinese workers (with braided cue [sic]), also with cancelled check dated November 12, 1917, made out to Yee Shung for \$30 from New Almaden Co. Inc.	NAQCPA
